# \$945.00 F. O B., Albuquerque SAXON

Three years ago Saxon ears were unknown, today they occupy seventh place in the industry-the same men are still engineering Saxon destiny. You can depend upon the strength, economy and service you get in a Saxon "SIX."

It is a car that stands out above and beyond any other car in its class. The power flow developed by the six cylinder motor is 98% smoother than that of the best known "four" in its price class. That is why Saxon "SIX" picks up faster, is more flexible, and is capable of far greater pulling power. greater endurance and economical upkeep.

Let us give you a demonstration to show you how supple and able a performer this new series SAXON is.
